SUMMARY

Aspiring software developer with a strong foundation in web technologies and programming. Proficient in **HTML, CSS, JavaScript, Python, Java, SQL, and PHP** with hands-on experience in **front-end and back-end development, database management, and deep learning model training**. Eager to contribute to the development of **scalable, user-centric applications** in a dynamic and growth-oriented environment that values **efficiency, creativity, and technical excellence**.

EDUCATION

Vignan's Foundation for Science Technology and Research, India

2022 – Present

- Batchelor of Technology, Information Technology, **CGPA: 8.0**

Jaya Bharathi Junior College, Gurazala, India

2020 – 2022

- MPC (Class XII), Percentage – 90

PROJECTS

Login Store

VFSTR, Guntur

Web Developer

May, 2024- Mar, 2025

- Developed a full-stack web app for storing and managing credentials across multiple platforms.
- Utilized PHP for backend logic and MySQL for data storage and retrieval enabling CRUD operations for **50+ credential records per user**.
- Designed an intuitive, responsive UI using **HTML, CSS, and JavaScript**, improving user navigation time by **30%**.
- Deployed the project using XAMPP and improved UX through iterative enhancements.
- Handled data securely, improving login **success rates by 100%**.

Goat Disease Identification Using Deep Learning

VFSTR, Guntur

Python Developer

Dec, 2024- May, 2025

- Built a disease detection model using a custom goat dataset.
- Applied augmentation techniques, increasing training data volume by **60%**.
- Trained CNN, VGG19, and Inception models, achieving **85% accuracy**.
- Improved model performance by **10–15%** post augmentation.

TECHNICAL SKILLS

- **Programming Languages** : Python, C++, C, Java.
- **Web Technologies** : JavaScript, CSS, HTML, React.js, PHP.
- **Cloud Platforms** : AWS (EC2, S3), GitHub.
- **Data Base** : SQL, MongoDB.
- **Tools** : VS Code, Google Colab, XAMPP, Git.

ACHIEVEMENTS

- **2*** rating in codechef -2024.
- Solved over 200+ problems in various coding platforms like leetcode, CodeChef and HackerRank – 2022-2024.
- Competed in multiple **national-level hackathons**, including HackwithInfy and Amazon Hackathon, gaining hands-on experience in problem-solving.
- Participated in Adobe Hackathon.

COURSES & CERTIFICATIONS

- Certified in Programming in c++ certification from NPTEL – 2024.
- Python (Basic) from HackerRank (covered the programming concepts of python).
- Sql(Basic) from HackerRank
- ICAT Certificate.
